## RHEL7 RHCSA SINGLE PAGE GUIDE

Date: 12<sup>th</sup> October 2018

Provider: Ankam Ravi Kumar

## Red Hat Enterprise Linux 7 Certification Guide

Click blue text to read content and see the video tutorial, Best of luck for RHCSA certification

S. No	Topic Description	Article	Video	
Understand and use essential tools				
1	Introduction to Linux	<u>Intro Linux</u>	<u>Video</u>	
2	Access a Shell Prompt and issue commands with correct syntax	25 basic commands	<u>Video</u>	
3	Use Input-Output redirection		<u>Video</u>	
4	Use Grep and regular expressions	Grep Examples	<u>Video</u>	
5	Access Remote machine using ssh	sshd guide	<u>Video</u>	
6	Log in and Switch users in multiuser targets			
7	Compress and uncompress files using tar and zip	Tar and zip	<u>Video</u>	
8	Create Hard and Soft Links	Linking Files	<u>Video</u>	
9	Files and Directory Permissions ugo/rwx	<u>Permissions</u>	<u>Video</u>	
10	Getting Help and System Documentation	<u>Documentation</u>	<u>Video</u>	
Operate running systems				
11	Start, Reboot and shutdown a system normally	<u>systemctl</u>	<u>Video</u>	
12	Interrupt boot process and gain access to system	Root password	<u>Video</u>	
13	Identify CPU/memory intensive processes, adjust process priority with renice and kill processes	<u>Manage</u> processes	<u>Video</u>	
14	Locate and interpret system log files and journals	Log files	<u>Video</u>	
15	Access a virtual machine's console	<u>KVM</u>		
16	Start, stop, and check the status of network services	Check Status	<u>Video</u>	
17	Securely transfer files between systems	Securely copy	<u>Video</u>	
Configure local storage				
18	List, Create and delete partitions	<u>Partitions</u>	<u>Video</u>	
19	Creating Logical Volumes and Deleting	<u>LVM's</u>	<u>Video</u>	
20	Extending Logical Volumes	<u>Extend</u>	<u>Video</u>	

## RHCSA Video Playlist

. No	Topic Description	Article	Video		
21	Add swap Memory to a system non-destructively	Swap Memory	<u>Video</u>		
22	Create and configure set-GID directories for collaboration	UID and GID	<u>Video</u>		
23	Access Control List (ACL)	<u>ACL</u>	ACL Video		
24	Configure networking and hostname resolution statically	<u>Hostname</u>	nmtui Video		
25	Schedule tasks using at and cron	Crond & at	Cron Video		
26	Install Red Hat Enterprise Linux systems	RHEL7 Install	RHEL7 Video		
27	Install and update software packages	RPM Command	RPM Video		
28	Update the kernel package	Kernel Upgrade	Kernel Video		
	Manage users and groups				
29	Creating, Modifying and Deleting local users and groups	<u>Users</u>	<u>Users video</u>		
30	Change passwords and adjust password aging for local user accounts	Password Change	Aging Video		
31	Create local groups and group membership	Groups	<u>Groups</u> <u>Video</u>		
Manage Security					
32	Configure firewall settings using firewall-config and firewall-cmd	<u>Firewall</u>	Firewall Video		
33	Configure key-based authentication for SSH	<u>SSH</u>	SSH Video		
34	SELinux Policies	SELinux	<u>SELinux</u> <u>video</u>
